

**NNEC FALL TOUR: Saturday, August 24, 2013  
Conway, NH, beginning at 10:00 am (rain or shine)**

**The old sleigh factory**, 1890-1920, founded by William Snow is a treasure off antiquity. This town of Snowville was named after the ingenious inventor, not the snow on the ground.

Directions: From route 153 in Eaton, turn east at the town beach (the only other road). After 0.8 miles, turn left onto Snowville Rd. After 1/10<sup>th</sup> of a mile, you're there.

Get there before 10:00; it's a long ride from anywhere. We'll be through about 11:30.

Have lunch on your own in Conway, 5 miles north on route 153. Meet up again at Redstone Granite Quarries at 1:00 pm. There will be a brief meeting to elect new officers.

Directions: Heading north on Route 16 out of Conway, turn right at Burger King & LL Bean onto Route 302 east. After two sets of lights, look for this picture on the left, after Wal-Mart. Park on the grass on either side.

Bring good hiking shoes, not sneakers, bug dope, a water bottle, camera, and something to put free samples of granite into.

Much of the walking is on easy trails but some is on quite rugged non-trails. Some may not opt to hike up the steep hillsides to see the views from their tops.

The quarries are all overgrown now but go to this site to see what they looked like and to learn all about them before you get there.
